Unusual Fire and Explosion Hazards: This material may generate oxides of carbon when heated.

Extinguishing Media: Water, carbon dioxide, or dry chemical.

Special Firefighting Procedures: Firefighters and others exposed to vapors or products of combustion should wear self-contained breathing apparatus.

Section VI - Accidental Release Measures

Clean up with water before allowing to dry. Sodium Chloride can be sprinkled on the spill, which may coagulate the latex and facilitate cleaning with water. Place coagulated waste in a closed container. Wear protective equipment during cleanup.

Section VII - Handling and Storage

Avoid prolonged or repeated inhalation of heated vapors or spray mists. Store away from heat or open flame. Do not allow to freeze. Material will be unusable if frozen.

Section VIII - Exposure Controls/Personal Protection

Respiratory Protection: May be required during normal use and handling. The need for respiratory protection should be evaluated if this material is sprayed or heated in poorly ventilated areas.

Ventilation: General ventilation is recommended during normal use. Local ventilation is required during operations where this material is heated and cured to prevent carbon monoxide from entering the workplace atmosphere.

Protective Clothing: Chemical-resistant nitrile, neoprene or rubber gloves required.

Eye Protection: Wear face shield or chemical goggles.

Other Protective Clothing or Equipment: Wear protective clothing to prevent skin contact. Eye wash station and safety shower should be available.

Work/Hygienic Practices: Wash hands thoroughly with soap and water before eating, drinking, smoking or using toilet facilities.
