

Cervantes ~ Delgado, Inc.

# Material Safety Data Sheet

**Product Name: CDI-HP40 Urea Solution**

Page 1 of 6

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: CDI-HP40 Urea Solution  
Generic Name: Urea, Aqueous Solution  
Chemical Family: Organic Salt Solution

Responsible Party: Cervantes~Delgado, Inc.  
P.O. Box 9083  
Brea, California 92822

For further information contact MSDS Coordinator  
8am -4pm Pacific Time, Mon- Fri: 714-990-3940

## EMERGENCY OVERVIEW

### 24-Hour Emergency Telephone Numbers:

For Chemical Emergencies:  
Spill, Leak, Fire or Accident  
Call CHEMTREC  
North America: (800) 424-9300  
Others: (703) 527-3887 (collect)

For Health Emergencies:  
California Poison  
Control System  
Cont. US: (800)356-3129  
Outside US: (415)821-5338

**Health Hazards:** Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

**Physical Hazards:** None Anticipated

Physical Form: Liquid  
Appearance: Colorless, clear  
Odor: None to slight ammonia

NFPA HAZARD CLASS: Health: 0 (Least)  
Flammability: 0 (Least)  
Reactivity: 0 (Least)

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

No hazardous components identified per 29 CFR 1910.1200.

OTHER COMPONENTS	% Weight	EXPOSURE GUIDELINE		
		Limits	Agency	Type
Urea CAS# 57-13-6	40-41	Not Established		
Water CAS# 7732-18-5	59-60	Not Established		

Methylenediurea\*                      0.4-1.00                      Not Established  
CAS# 13547-17-6

\*Methylenediurea is in the class of materials known as Urea, reaction products (CAS# 68611-64-3).

Note: State, local or other agencies or advisory groups may have established more stringent limits. Consult an industrial hygienist or similar professional, or your local agencies, for further information.

### **3. HAZARDS IDENTIFICATION**

#### **POTENTIAL HEALTH EFFECTS:**

**Eye:** Contact may cause mild eye irritation including stinging, watering, and redness.

**Skin:** Contact may cause mild skin irritation including redness and burning. No harmful effects from skin absorption have been reported.

**Inhalation (Breathing):** No information available. Studies by other exposure routes suggest a low degree of toxicity by inhalation.

**Ingestion (Swallowing):** No harmful effects reported from ingestion.

**Signs and Symptoms:** Effects of overexposure may include irritation of the nose, throat and digestive tract, headaches, coughing, nausea, vomiting, and transient disorientation.

**Cancer:** Inadequate evidence available to evaluate the cancer hazard of this material.

**Target Organs:** No data available.

**Developmental:** Inadequate evidence available for this material.

**Pre-Existing Medical Conditions:** None known.

### **4. FIRST AID MEASURES**

**Eye:** If irritation or redness develops, move victim away from exposure and into fresh air. Flush eyes with clean water. If symptoms persist, seek medical attention.

**Skin:** Remove contaminated shoes and clothing and cleanse affected area(s) thoroughly by washing with mild soap and water. If irritation or redness develops and persists, seek medical attention.

**Inhalation (Breathing):** If respiratory develop, move victim away from source of exposure and into fresh air. If symptoms persist, seek medical attention. If victim is not breathing, clear airway and immediately begin artificial respiration. If breathing difficulties develop, oxygen should be administered by qualified personnel. Seek immediate medical attention.

**Ingestion (Swallowing):** First aid is not normally required; however, if swallowed and symptoms develop, seek medical attention.

## 5. FIRE FIGHTING MEASURES

**Flammable Properties:** Flash Point: None to boiling  
OSHA Flammability Class: Not applicable  
LEL/UEL: No data  
Autoignition Temperature: No data

**Unusual Fire & Explosion Hazards:** Closed containers exposed to extreme heat can rupture due to pressure buildup.

**Extinguishing Media:** Use extinguishing agent suitable for type of surrounding fire.

**Fire Fighting Instructions:** For fires beyond the incipient stage, emergency responders in the immediate hazard area should wear bunker gear. When the potential chemical hazard is unknown, in enclosed or confined spaces, or when explicitly required by DOT, a self-contained breathing apparatus should be worn. In addition, wear other appropriate protective equipment as conditions warrant (see Section 8). Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done with minimal risk. Move undamaged containers from immediate hazard area if it can be done with minimal risk. Water spray may be useful in minimizing or dispersing vapors. Cool equipment exposed to fire with water, if it can be done with minimal risk.

## 6. ACCIDENTAL RELEASE MEASURES

Stay upwind and away from spill/release. Notify persons downwind of spill/release, isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrant (see Section 8). Prevent spilled material from entering sewers, storm drains, other unauthorized treatment drainage systems, and natural waterways. Dike far ahead of spill for later recovery or disposal. Spilled material may be absorbed into an appropriate absorbent material. Notify appropriate federal, state, and local agencies. Immediate cleanup of any spill is recommended.

## 7. HANDLING AND STORAGE

**Handling:** Do not enter confined spaces such as tanks or pits without following proper entry procedures such as ASTM D-4276 and 29CFR 1910.146. The use of appropriate respiratory protection is advised when concentrations exceed any established exposure limits (see Section 2 and 8). Wash thoroughly after handling. Do not wear contaminated clothing or shoes. Use good personal hygiene practice.

**Storage:** Keep container(s) tightly closed. Do not heat or contact with strong oxidizers. Use and store this material in cool, dry, well-ventilated areas. Do not store at temperatures below 40°F. Store only in approved containers. Keep away from any incompatible material (see Section 10). Protect container(s) against physical damage.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Engineering Controls:** If current ventilation practices are not adequate to minimize exposure, additional ventilation or exhaust systems may be required.

### Personal Protective Equipment (PPE):

**Respiratory:** Respiratory protection is not usually required.

**Skin:** The use of gloves impermeable to the specific material handled is advised to prevent skin contact, possible irritation, and absorption (see glove manufacturer for information on permeability)

**Eye/Face:** Approved eye protection to safeguard against potential eye contact, irritation, or injury is recommended. Depending on conditions of use, a face shield may be necessary.

**Other Protective Equipment:** A source of clean water should be available in the work area for flushing eyes and skin. Impervious clothing should be worn as needed.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Note: Unless otherwise stated, values are determined at 20°C (68°F) and 760 mm Hg (1 atm).

<b>Flash Point:</b>	None to boiling
<b>Flammable/Explosive Limits (%):</b>	Not Applicable
<b>Autoignition Temperature:</b>	Not Applicable
<b>Appearance:</b>	Colorless, Clear Physical State: Liquid
<b>Odor:</b>	None to slight ammonia
<b>pH:</b>	7.5 - 9.5
<b>Vapor Pressure (mm Hg):</b>	Not Applicable
<b>Vapor Density (air=1):</b>	0.6 H <sub>2</sub> O, >1
<b>Aerosol Boiling Point:</b>	>212°F
<b>Crystallization Point:</b>	35°F
<b>Solubility in Water:</b>	100%
<b>Specific Gravity:</b>	1.11
<b>Evaporation Rate (nBuAc=1):</b>	<1
<b>Bulk Density:</b>	9.28lb/gal

## 10. STABILITY AND REACTIVITY

**Chemical Stability:** Stable under normal conditions of storage and handling.

**Conditions To Avoid:** None known

**Incompatible Materials:** Avoid contact with strong oxidizing agents such as chlorine (bleach), peroxides, chromates, nitric acid, perchlorates, concentrated oxygen, and permanganates. Contact can generate heat, fire, explosions and release toxic fumes.

**Hazardous Decomposition Products:** If involved in a fire, oxides of carbon and nitrogen may be generated; exposure to heat may generate ammonia fumes.

**Hazardous Polymerization:** will not occur.

#### 11. TOXICOLOGICAL INFORMATION

No definitive information available on carcinogenicity, mutagenicity, target organs or developmental toxicity.

#### 12. DISPOSAL CONSIDERATIONS

This material, if discarded as produced, is not a RCRA "listed" or "characteristic" hazardous waste. Use resulting in chemical or physical change or contamination may subject it to regulation as a hazardous waste. Along with properly characterizing all waste materials consult state and local regulations regarding the proper disposal of this material.

#### 13. TRANSPORT INFORMATION

Hazard Class or Division: Not classified as hazardous

#### 14. REGULATORY INFORMATION

This material contains the following chemicals subject to the reporting requirements of **SARA 313** and **40 CFR 372**.

--None--

**Warning:** This material contains the following chemicals which are known to the State of California to cause cancer, birth defects or other reproductive harm, and are subject to the requirements of **California Proposition 65** {CA Health & Safety Code Section 25249.5}

--None Known--

This material has not been identified as a carcinogen by NTP, IARC, or OSHA.

**EPA {CERCLA} Reportable Quantity:** --None--

#### 15. DOCUMENTARY INFORMATION

Issue Date: 02/01/04

Previous Issue Date: 09/01/01

**16. DISCLAIMER OF EXPRESSED AND IMPLIED WARRANTIES**

The information in this document is believed to be correct as of the date issued. **HOWEVER, NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR ANY OTHER WARRANTY IS EXPRESSED OR IS TO BE IMPLIED REGARDING THE ACCURACY OR COMPLETENESS OF THIS INFORMATION, THE RESULTS TO BE OBTAINED FROM THE USE OF THIS INFORMATION OR THE PRODUCT, THE SAFETY OF THIS PRODUCT, OR THE HAZARDS RELATED TO ITS USE.** This information and product are furnished on the condition that the person receiving them shall make his own determination as to the suitability of the product for his particular purpose and on the condition that he assume the risk of his use thereof.
