: Full emergency equipment with self-contained breathing apparatus and full protective clothing should be worn by firefighters. A fire causes irritating

and/or toxic gases to form along with smoke from

combustion/decomposition. Closed containers may explode when exposed to extreme heat. The solid residue will support combustion after the water

has evaporated.

Special Protective Equipment for Firefighters : Wear a self-contained breathing apparatus (pressure-demand, MSHA/NIOSH-approved or equivalent) and full protective gear.

Product Identifier: Desert Brand Paver Sealer Last Revision Date: 05/17/2015 Page 2 of 7

Fire Fighting Procedures

: Water may be used to keep closed containers cool and prevent pressure build up.
